The ENTF Energy Efficiency subcommittee has established the following success measures and indicators to track progress in the area of utility assistance for Kent County residents. The overall goal is as follows:

All Kent County residents have adequate utility service.

Percent of state government business days in which utility assistance was available

Currently 30% availability

Percent of electric utility service addresses weatherized int he past 12 months

Currently 2% participated in weatherization services

Percent of eligible residents (150% of poverty rate or less) receiving any subsidy in the course of the year

Baseline data being established

Percent of residents who participated in an energy efficiency education program int he past 12 months

Baseline data being established

Percent of households spending no more than 2% of their local geography's median household income on electric utility service

Baseline data being established
